Aviation and Leadership Training PM Community Erste BankMy main goal was to inspire the Community.

On October 8, 2026, I participated as a guest speaker at a PM Community training event hosted by Erste Bank at the Erste Campus in Vienna. My presentation focused on the non-technical skills associated with Crew Resource Management and the parallels between business leaders and pilots—serving as a leadership training session that drew on insights from my 40-year career in the cockpit. The participants were fantastic, and the experience was truly mutually inspiring. A heartfelt thank you to Peter Weiss and his team, and best wishes to all the participants.
